Pure Maple Sugar.

I TAKE pleasure in informing my old customers and others, that my Spring supply of Maple Sugar from the interior of Vermont has just arrived, fresh from the sugar trees, and can be had at my house in French street, and at the Mutual Store in Norombega Market. For the information of those unacquainted with this Sugar I will say that it is *wholly Maple*, in its purest form, made by the farmers of the Green Mountain State, and if it is not equal to the Sugar that is some times produced in this State from pine trees and molasses hogsheads, they are not to blame, as they have no such facilities there for making it. Syrup made of this Sugar, with at least 8½ lbs to the gallon, is also to be had at the store where the Sugar is kept. Price $1 25 per gallon.

Sugar, 14 Cents per Pound.

This Syrup makes a superior sauce for all kinds of Pudding, Buckwheat Cakes, &c. It can be made in small quantities in a few minutes by putting a little water with it and heating it until it melts. It is warranted to give entire satisfaction to all who may use it.

SPAIN—Letters of a Traveller in Spain by W. C. Bryant, for sale by E. F. DUREN.

Whig and Courier.

The Cubans have a singular method of harnessing their oxen or bulls something similar to the custom of Eastern countries. The yoke is placed behind and at the roots of the horns, and fastened to them by ropes wound firmly around, and they draw the heaviest loads without chafing. The animals always have a hole perforated through the nostrils, through which a rope is passed, rendering them very tractable, and the wildest and most stubborn animals are by this means subdued, and can be led anywhere. It is asserted in natural history, that the greatest strength of the horned animals lies in the head and neck, and here for once the Spaniard seems to be ahead of the Yankee, who places the yoke across the neck and breast, and the load is drawn by the impetus of the body as given by the limbs.

CAUGHT IN HIS OWN TRAP.—About a week or more ago a well dressed man named Frederick Leonard entered the Detective office in breathless haste, and stating that he had been robbed of $1050, asked that all hands might be sent out in quest of the thief. He said that while at a circus in Williamsburg his fob pocket had been cut with a sharp instrument, and the money, which was in bills of large denominations, taken therefrom. Capt. Walling examined the pocket from which the money was alleged to have been extracted, and found that the cut in the fob pocket was much larger than in the pantaloons. The fact created suspicion, and Mr. Leonard was closely questioned, but nothing further was elicited. His anxiety to have the police sent out in search of the thief seemed to abate, and he soon exhibited a desire to leave the office, which he was permitted to do.

On Saturday morning last, Mr. Morton, of the same city, called upon the detectives and said he had noticed an item in the daily papers relative to Leonard, who he had intrusted with a horse valued at $1050 to dispose of, and he suspected that something was wrong. Officers were sent out to look for Leonard, but he was non est, and it was ascertained that he started for Boston yesterday morning. A telegraphic despatch of the fact was sent to Boston, and last evening an answer was returned stating that Leonard was apprehended as he left the cars, and that upon examination nearly all the money realized from the sale of Mr. Morton's horse was found in his stocking.—Leonard admitted appropriating the money, and said that he made the cut in his clothes in order that his story might be believed.—*N. Y. Tribune.*

A lady who has been travelling across the prairies with her husband and others for Pike's Peak, writes to the Sibyl, giving the following account of the attention which she attracted among the Indians, and of the conjugal fidelity with which she withstood their fascinations:

"Though there was not a shadow of danger in such a company as ours, as many of us well knew at the time, and as many experienced men have since informed us, it is very true that the red men have an unaccountable fancy for white women. My husband received very many flattering offers for me. One Indian wanted to trade for two squaws, who could probably perform four times the physical labor that I could. Others, not quite so timid, approaching the wagon, made signs for me to jump behind them on their ponies, but I declined the honor in the most emphatic [illegible] I knew of their dialect—a decided shake of the head."

From the Maine Farmer.

The Aroostook Railroad.

Below we give you an abstract of the Aroostook Railroad Bill passed by the recent Legislature.

It will be seen that the route proposed is from Bangor up the Penobscot River to Mattawamkeag point—about sixty miles; thence, across the most eligible ground to the eastern boundary of the State, forty miles, where it will connect with a road from Halifax through Nova Scotia and New Brunswick. A branch from this latter section is to run up the Aroostook River. The route thus seems to be divided into two natural sections, viz: from Bangor to Mattawamkeag, and from this latter point to the Province line. Or, in other words, they may be distinguished into the Penobscot section and the Aroostook section. It will also be seen that the Penobscot section is first to be built by private enterprise, and when this private enterprise in Bangor and vicinity has constructed the sixty miles of Penobscot road all in good shape to Mattawamkeag, then and not till then a portion of the public lands are to be used [illegible] in constructing the Aroostook section.

We wish it to be clearly understood that the lands themselves are not given to the Railroad company for this purpose, for then the company could sell them when and how they please, but the lands are to be kept in the hands of the State or its agents, and a portion of the money obtained by the sales of lands not otherwise excepted by the bill are used to aid the building of the Aroostook section. Before a dollar of this land money can be called for, a good and substantial road is to be built up into the new country on one side, and the Province road will be built on the north [illegible] and we the people are [illegible] to put in the last link of forty miles to finish a grand thoroughfare [illegible] through our whole State, thus making it no longer a mere outsider, a jumping off place, as is often said, but a middle territory, or station, of as magnificent a [illegible] international improvement and [illegible] communication as can be found in the world. A question so vitally, intimately and immediately connected with the future greatness of our State was never before submitted to us as a people, nor indeed to any people. By our action on the 12th of June next we shall say whether Maine shall adopt a new and liberal policy [illegible] her from the low [illegible] she has so long occupied as compared with other States, and raise herself to an elevation equal to that which many other communities have attained, or whether she will continue to plod on in the old way, crouching [illegible] like an ass between two burthens, viz: lack of liberal public spirit and energy on one hand, and the consequent depression and loss of public property and self respect on the other.

We are aware that there are many who oppose this measure. Some earnestly oppose it from a [illegible] by diverting the proceeds of the public lands from the usual course [illegible] will be rendered unable to meet the annually recurring [illegible] of the State, and that an increase of State tax must be the ultimate result.

Others oppose it from a feeling of local jealousy, and [illegible] to think that the measure will tend to build up one portion of the State at the expense of the other.

The first class of opposers need only enlightenment by sound argument and demonstrable facts. The latter class are men who mistake prejudice for reason, and are too circumscribed in their views to listen to facts or arguments, or to make a patient investigation of the matter. It is to be hoped that this class is small.

These questions we reserve for a future consideration. At present, there is one pressing upon us of more immediate and primary importance, and that is—*Shall Maine rouse up and settle her own lands, or shall she continue to send her children abroad to settle those of other States?* This query may be absurd to some, and it would be so, did not the absurd and suicidal policy of Maine heretofore rendered it appropriate and applicable to the condition of affairs among us. It demands the serious attention of every friend of the State. That we have made comparatively slow, very slow progress in settling our public lands is a fact which no man can deny. That we have done more than our share—the population of our State and its capital considered, in settling the public lands of Western States—the territories of Kansas and Nebraska, and the States of California and Oregon, is equally true. The result of this is what the most careless can easily see—a great diminution in the ratio of our increase of population, and consequent great falling off in the increase of capital and the financial standing that the State ought to have.

Why is it so? Why is it that when we have thousands upon tens of thousands of fertile acres of wild land capable of being converted by a little industry into superior farms which would afford all the necessaries and luxuries of common life, our people flock to obtain land in other States, and leave our own unclaimed and untenanted? Because, strange as it may seem, we have allowed these lands to be hitherto more difficult of access, although within our own borders, than are those of other States and Territories thousands of miles away.

Ever since the commencement of Railroads the facilities of travel have all turned westward.

Those most conversant with travel in different sections of our own State and have travelled in other States will tell you that they can travel with more ease from Augusta to the Missouri river, than they can from Augusta to the Aroostook river. They will tell you, that a man with a family, desirous of obtaining new land for a home, can convey himself and family and his goods with more ease to Illinois than he can to the public lands of our own State. This is a shameful truth, and dearly has the State of Maine paid for her remissness and neglect in regard to opening proper avenues to her public domain.

It is true that much money has been expended in building roads thereon, and if no other facilities of travel were to be found in other States, we should be on equal footing in that respect with them.

He who has now to travel long distances to market on a common road, finds himself unable to compete with one who comes in at a far less expenditure of labor and time and pecuniary expense on a Railroad. Hence the shrewd, active and enterprising man may turn his back upon a region, however great may be its natural advantages, and seek one where all the modern appliances of cheap and rapid conveyances are in successful operation. That this has been the case in our State, and has kept Maine in the back ground, an examination of the census tables will abundantly and conclusively show. We will go no farther back than 1820, when Maine became an independent State. We will take the first ten years, or decade of the census, and following down to 1850, mark the ratio of the increase for the several ten year periods.

In 1820 the population of Maine was [illegible]

BANGOR DAILY WHIG AND COURIER.

385. At that period there were no railroads in existence, and we were as well off in regard to conveniences of travel as others, and considering the extent of our sea coast, a little better. In 1830 our population amounted to 399,437. This made an increase of 101,102 in ten years, which, if we mistake not in, in round numbers, 34 per cent—that is, every hundred of people had added to itself 34. It is easy to see, had this ratio of increase continued up to the present time, what would now have been the population of Maine.

But at 1830, Railroad enterprises had commenced, and Maine, instead of uniting in these enterprises, stood looking on, regardless of her own interest. Not so her young men. Finding other States active in developing the resources, and therefore offering greater inducements for their enterprise, they rushed in and what was the effect? Let the census of 1840 answer. We have seen that in 1830 our population was 399,437. In 1840 it was 501,796, making an increase of 102,359, which, instead of being an increase of 34 per cent, is only 24 per cent. Now, no one will deny that each hundred people of Maine had, in reality increased as much during this last period as in the first; but they did not remain among us. They left us to toil on the tide of prosperity in other States. Well, how was it during the next period, from 1840 to 1850?

In 1850 the census gave us 583,190, an increase on 1840, of 81,394, which is a ratio of only 16 per cent! Thus we see, that our listlessness and neglect in regard to the development of our own resources, and in following up the improvements of the day, has reduced our ratio of increase, at a most fearful rate.—contrast, if you please, in your own mind, the difference of our condition at present, and what it would have been had we held on to our increase of 24 per cent, as it was during the first ten years of our State existence! We rejoice that, though late in the day, our Legislature has been aroused to the true condition of things, and have made an effort to retrieve in some degree, our losses. They have, as we said in the beginning, made out a plan of operations, and the only plan by which this can possibly be done. And now, what say you brother farmers, mechanics and laboring men of Maine? Shall it be done? To you has been given the power, and on you now rests the responsibility. Will you, by your votes, on the 12th of June, arrest the downward progress of the State of Maine, and in one day put it in her power to take a high and prosperous position, and to maintain that position, or will you leave her a laggard in the race, and a by-word and reproach among her sisters of the Union? Fear not for the increase of State taxes. An increase of taxable property will keep up the equilibrium. Settle your wild lands and thus get them into a taxable state, and every acre now dormant and unavailable, and a bill of cost, will become productive and form an additional reliable fund to meet the exigencies of the State.

HOW AUSTRIA HOLDS THE TRUMPS. The Paris correspondent of the New York Courier & Enquirer writes that the peace of Europe was maintained for the present, simply by the fact that if France were to move towards Piedmont, Austria, with a force of 200,000 men would crush Piedmont in a few hours, while France could not come to the rescue in time to save her. It would take France a week to reach the seat of difficulty; and within twenty-four hours after the Emperor's army embarked, Austria would have crushed out Piedmont by the overwhelming force which she has in readiness for that purpose. This fact has preserved the peace of Europe for the past sixty days, and leads France to consent to a Congress. Will that Congress obviate the necessity of the threatened war? The writer thinks not.

ANOTHER EXCELLENT ARTICLE. We copy to-day, an able article from the *Maine Farmer*, in relation to the Aroostook Railroad Bill.—The advantages which the State will derive from the building of that road are justly set forth, and the objections to appropriating the public lands are well met. The general effect of railroads in developing the material resources and increasing the population and taxable property of a State is shown by familiar facts and figures, and the expediency of adopting a new and a wiser public policy in Maine is shown from the whole argument in the case.—We commend the article to a thoughtful and candid perusal. It should have weight in all sections of the State; for it appears in a quarter in which it cannot be pretended there is any local interest to induce an advocacy of the measure, and it is published in a paper which has ever been the true friend and adviser of the masses of the people throughout the State.

TRIAL JUSTICES. The bill providing for the appointment of trial justices of the peace, referred to in our paper of yesterday, did not become a law—as we perceive by the published acts. We made the statement of its passage on the authority of the Belfast Age, and before receiving our copies of the laws. The title of the bill appeared moreover in the titles published by the Augusta papers. But we are informed that the bill did not pass, finally.

THE SLAVE RESCUE CASE. In the Oberlin rescue cases, at Cleveland, the thirty six prisoners who went to jail on the 15th, rather than stand their trial before the jury which convicted Simeon Bushnell, have gained their point.—Brought from jail into Court on Monday, a new jury was ordered for Mr. Langston. At last accounts the impannelment was going on.

A gentleman recently from England brought two dozen English sparrows, three pairs of which he loosed in Portland.

Supreme Judicial Court.—April Term.
APPLETON, J., presiding.

April 23.

Charles D. Gilmore vs. Andrew McNeil and Henry G. Thaxter. This case, which was commenced on Tuesday, was closed to-day. The testimony was conflicting throughout—sometimes directly opposed. It was violently argued by Knowles for defts. and by C. P. Brown for pltff. Each occupied nearly a day, and was unusually personal and severe. The verdict was for the plaintiff for $285,47.

ON TRIAL.

Collier Snow, Adm'r, vs. Isaac Snow. For $1000, money had and received. Pltff. claims this as the amount to which he is entitled as heir of Edward Snow, late of Orrington. Defendant is administrator of Edward, and denies the claim. Peters for plff., Rowe for deft.

CAPT. STUBBS CASE. In relation to the sailor boy, Alonzo Moor, falsely alleged to have been cruelly beaten by Capt. Stubbs, we have learned since yesterday that Capt. S. returned to Point Petre about three months after the boy was left there, and was informed by the American Consul that young Moor remained only three weeks at the hospital,—having shipped for Wilmington, N. C., after nearly recovering the use of his arm. It is also stated that he was at home in Etna sometime during the past winter. The complainants against Capt. Stubbs must have known these facts—which renders it more clearly a case of malicious prosecution.

The bark "JANE M. THURSTON," was very handsomely launched on Saturday, from the yard of Master Isaac Dunning in Brewer—and is allowed to be one of the handsomest and best vessels on the river. She is about 400 tons burthen, owned by Messrs. Thurston & Metcalf of this city, B. D. Locke of Boston, and A. J. Ross and Simeon Ross of Belfast,—to be commanded by Capt. Mark Ginn of Bucksport—and to make her first voyage to Havana with an assorted cargo. After the launch Saturday afternoon, all the workmen who had been engaged on the vessel adjourned to the Dwinel House on invitation of one of the owners and partook of an oyster supper, served up in good style.

PIANO FORTES. Mr. J. W. Pollard of Oldtown, has purchased one of the beautiful Cummings & Canfield, New York, pianos, which are on exhibition and sale at No. 19 Main St. They are truly superior instruments.

QUICK TRIP. Brig Robin, Capt. Kilman, which arrived at Frankfort on Thursday from Cardenas with molasses, left Frankfort 49 days before for Cardenas, with a cargo of shooks.

THE ASSAULT UPON MR. WALL.—On Saturday afternoon in the Police Court the examination of the persons charged with riotously assaulting and beating Mr. Patrick Wall on the night of the 9th inst., was to take place according to assignment.

The defendants, Daniel Quimby John Crosby, Charles and Patrick Gallagher and Edmund Getchell, appeared.

Counsel for prosecution, C. S. Crosby, (County Attorney) and Knowles. For defence A. Sanborn Esq.

Counsel for defence stated that the respondents would waive an examination, and they were required to recognize severally in the sum of $500 for appearance for trial at the Supreme Court in August next. Mr James O'Donahoe became surety for the appearance of all the defendants.

SHIPBUILDING AT THE EASTWARD. The Machias Union reports that vessels are soon to be commenced by Messrs. Gardner & Longfellow, Nathan Longfellow, Denworth, Harmon and others and the Messrs. Holway. Also at Cherryfield by Messrs. Kingsley & Smith, and Amos Dyer; at Millbridge by Ezekiel Dyer; at Harrington by O. S. Plummer, and at Jonesport by D. J. Sawyer.

The Ellsworth American, says that many persons in Maine neglect getting their deeds recorded; and very properly calls upon them to get out of this pernicious habit of the neglect of the vital interest of themselves and their children.

The Bath Sentinel learns that Messrs. Stetson & Son, well known ship-builders in Damariscotta, are negotiating for the purchase of the yard formerly occupied by Messrs. Hall, Snow & Co., with the intention of putting it into immediate use.

☞ The Selectmen of Lewiston have called a town meeting to see if the citizens will accept the act to encourage manufactures, so far as to exempt capital thus employed from taxation for a term of years.

East Maine Conference.

THOMASTON, April 20, 1859.

We left your city Monday in the Steamer Sanford, for Rockland, en route for the seat of the East Maine Conference of the M. E. Church. The Sanford returns this spring in good order to accommodate the travelling public. Several ministers were on board, and the hours passed pleasantly away in social conversation with old friends. Tuesday morning, came over to this beautiful village. The day preceding the Conference is devoted to the examination of classes of young men who are passing through the first years of their ministerial life.

Wednesday Morning. The Conference was opened at 8 o'clock, by Bishop E. R. Ames, of Indianapolis, Ind. The first service was the administration of the Lord's Supper, by the Bishop, assisted by several members of the Conference. To this impressive scene all ministers of other Churches and their communicants, were most cordially invited, and many came to the altar to commemorate the death of Christ. This is the way it should be. It was an hour of deep interest.

Rev. A. Church, of Hampden, was unanimously re-elected Secretary, who appointed Rev. L. D. Wardwell, late of the Brick Chapel, his assistant. Several ministers of sister Churches in this village and in Rockland were introduced to the Conference and invited to sit within the bar. Father Hall, now almost 91 years of age, briefly addressed the brethren. Also, the venerable Wm. Marsh. Several young men were elected to Elders' orders, and will be ordained next Sunday. Rev. H. B. Curtis gave a favorable account of the Bangor District, Rev. Geo. Pratt, of the Rockland, and Rev. F. A. Soul, of the Bucksport District. In four years Mr. Soul had travelled 20,000 miles in his ministerial work; and Mr. Pratt 16,000—13,000 with his own horse and carriage.

Rev. Theodore Hill was located at his request. Rev. F. O. Jenkins preached this afternoon, and Rev. L. D. Wardwell in the evening. At the evening service the church could not contain the people who desired to attend divine service, and another place of worship was opened.

Thursday Morning, 8½ o'clock.—Devotional exercises by Rev. William Marsh, one of the fathers of the Conference. A beautiful morning, and all things very pleasant in the conference room. Business is proceeding very rapidly, and the prospect is that we shall have a short and very profitable session.

Rev. J. P. French, Chairman of Committee on Slavery, offered an able report, going into the history of the General Conference's legislation on this important subject. Quite a discussion arose on this report, and it was recommitted. Report of the Committee on the Book Concern at New York, and financial exhibit were read, showing a large increase of sales, and that the concern is in a very prosperous condition. Circular from the S. S. Union of the M. E. Church was presented. The circulation of the S. S. Advocate last year was 187,000 and will rise this year to 200,000 copies.

The brethren to be received into full connection were called to the altar, and most appropriately addressed by Bishop Ames. The last part of the address contained passages of great power, eloquence and beauty. The disciplinary questions were asked by the Bishop. Rev. Mr. Woodhull spoke in behalf of the American Bible Society.

Chas. B. Springer, Wm. P. Ray, H. B. Wardwell, S. F. Chase and M. W. Newbert were received on trial in the Conference.

E. A. H.

THE MEETING SATURDAY EVENING.—The meeting at the City Hall on Saturday evening, for the purpose of hearing from William S. Bailey, Esq., of Kentucky, an exposition of his services and sacrifices, through his paper, the "*Free South*," in the cause of Free Labor and Free Principles, was organized by the calling to order by Charles S. Crosby, Esq. and the appointment of Henry E. Prentiss, Esq., as Chairman. Mr. Prentiss made a few appropriate remarks, and, on motion (by reason of the storm and the brief preliminary notice) the meeting was adjourned to Tuesday evening next, at half-past seven o'clock, at the same place. Judging from the interest manifested, notwithstanding the unfavorableness of the weather, it is hoped and believed that the Hall will be amply filled at the adjourned time.

The funeral of Mrs. Mary Ross Elliott, wife of Captain John L. Lee, will take place this (Monday) afternoon, at 3 o'clock, from the residence of M. Giddings. The remains of Mrs. Lee, (who died at Montevideo,) arrived in the steamer Sanford on Saturday.

☞ The City Council of Portland are making inquiries into the utility of steam fire engines. A deputation went to Boston last week for that purpose.

DEATH AT SEA.—Died on board steamer Orizaba, on her passage from San Francisco to New York, 16th ult, Jonathan B. Millett, son of Col. John Millett of Norway, aged 31.

☞ They are shipping from Hallowell ice which was cut and stored in the winter of 1858. It is proposed (says the Gazette,) that a huge pile of it remaining in an old barn on the river's bank shall be used as an abutment for the new bridge to be built across the Kennebec.

☞ The North Vassalboro' Manufacturing Company is a heavier concern, and is doing a heavier business than has been generally known. It is stated by the Maine Farmer that, the company employ about 180 hands regularly, and work about 250,000 lbs. of wool each year, making about as many yards of cloth. They consume 12,000 cords of wood each year. The rooms are lighted in the evenings with gas, which is made on the premises. The cloths of this manufacture took the highest premium at the World's Fair, held in London in 1851. T. S. Lang, Esq., an honorable and enterprising citizen of Maine, is the agent of the company.

Mr. Ichabod Thompson of Knox, on the 8th inst., while attempting to hold a frightened horse, was [illegible], dislocating his shoulder and [illegible] him quite severely.

The Central Executive Committee on the Aroostook Railroad, heretofore given, met in the room of the Land Office Saturday afternoon, and organized by choice of

Isaiah Stetson, Chairman,
T. H. Garnsey, Secretary,
G. K. Jewett, Treasurer.

A Special Committee of five was appointed to attend to disseminating information as to the subject of the Aroostook road throughout the State.

The Committee are S. F. Strickland, W. H. McCrillis, G. K. Jewett, G. L. Boynton, T. H. Garnsey.

The meeting adjourned to Thursday evening next, at 7½ o'clock.

ACCIDENT AND LOSS OF LIFE.—On Saturday morning a freight train upon the Eastern Railroad, broke through the Parker River Bridge between Rowley and Newburyport, and the locomotive and three or four freight cars were precipitated into the river. The Engineer was killed and the Fireman dangerously if not fatally injured. The bridge had been or was then on fire, which was the cause of the accident. It probably caught from a passing train. The bridge was of wood about 200 feet long. No Boston mail was received Saturday evening in consequence.

☞ There are *eleven females* now confined in Portland Jail. The whole number of prisoners is but thirty.

The Congregational Church at Gorham was damaged about $100, by fire, on Wednesday evening.

THE CASE OF DAVID BROWN vs. the South Kennebec Agricultural Society was tried last week in the Supreme Court at Bath, Judge Cutting presiding. The action was to recover damages for injuries sustained by the plaintiff's wife in September, 1857, by the breaking of the floor in which the society's Fair was holden. Defendants contend that they are not responsible for these injuries. Verdict for plaintiff for $1000.

Tallman & Larrabee for plaintiffs. Bronson and Clay for defendants.

POLICEMAN YORK.—Mr York the injured policeman began to fail very rapidly yesterday, and upon consultation the physicians gave it as their opinion that Mr. York would not survive the night through, unless some immediate relief could be given the patient. Drs. Clark and Lord, accordingly, performed the operation of trepanning the head. A piece of the skull nearly three fourths of an inch, was taken out and a large quantity of clotted blood removed which gave immediate relief to the patient, who has been gradually improving since the operation and is we are glad to hear in a fair way of recovery.—*State of Maine.*

Francis Conroy the lad who assaulted Policeman York on Sunday last, was brought up for an examination on a charge of assault with intent to kill. He was bound over to the July term of the Supreme Court in the sum of $2000, and was committed to jail for want of sureties.—*Argus.*

Items—Editoral and Selected.

The administration organs, both central and provincial, are by no means pleased at the doings of the recent Convention of the Forney democrats at Harrisburg. They denounce the whole concern as traitorous to the party, and to be cut off from its communion. The party is split in twain, and hopelessly demoralized in that great State. Buchanan couldn't carry it to-day within a hundred thousand votes—and we are certain that no other democrat can.

Somebody, in speaking of a lecture, asked 'Jim' how many here were out. Jim looked solemn, and promptly replied—

"Five hundred and seventy five."

"What! so many as that on so stormy a night?"

"Yes," mildly responded Jim, "full that number; the hall will hold six hundred, and as there were only twenty-five in it, there must have been five hundred and seventy five out."

Faneuil Hall, as originally built, was burned, and funds for rebuilding it obtained in part by means of a lottery authorized by the Colonial government of Massachusetts Bay, and of which John Hancock was manager.

☞ Bruised horseradish is said to be a remedy usually successful in allaying the pain of the toothache and neuralgia. Apply it outwardly to the face or to the portion of the body affected.

☞ Young ladies should be careful about picking up stray acquaintances on board steamboats or railroad trains. One of them travelling near Cincinnati recently allowed a strange fellow to insinuate himself into her confidence, and the consequence was that she lost, not her character, but her trunk full of clothing, and $420 in cash. The swindler entered his name at the hotel as her husband, and thus obtained possession of the trunk, and then persuaded the young lady to let him take her money to change it into gold.

The New York Sun has kindly postponed the Cuban revolt for a few days. Unforeseen incidents have interfered with the fulfillment of the Sun's predictions; and upon the whole, it seems a good deal easier to raise the flag of free Cuba in the columns of that paper than on the soil of the island. The official Gazette of Havana, of April 10th, ten days after the time of the predicted rising, ridicules the idea of an insurrection.—*Providence Journal.*

The Legislative Council of Canada have taken a firm stand against death-bed bequests—enacting that no bequest shall be valid if made within six months of the testator's death.—*Boston Journal.*

But suppose a man makes all he is worth during that time?

An improved method of suicide was adopted by an insane man in New York on Tuesday. The individual referred to went into a barber's shop, sat down in the operating chair, and allowed the barber to lather his face. He then exclaimed, "I am not fit to live!" and drawing a pistol from his pocket, fired at his image reflected in the mirror before him, which he shattered into fragments. Having committed this rash act, he abruptly left the shop carrying off with him the lather, and having [illegible] no money to pay the expense of his suicide.

THE RAILWAY CONNECTION EASTWARD.—The St. John New Brunswicker of April 21st, after giving an abstract of the Aroostook Railroad Bill just passed by our Legislature, says—

"When the Railway from Mattawamkeag to the frontier is fairly commenced, the Railroad from Shediac to this city will probably be completed; and it will then be incumbent on this Province to take measures for the construction of a railway westwardly from this city to connect, at the boundary, with the whole railway system of the United States."

Nobody doubts the adultery of Mrs Sickles with Mr Key—nor that the jury believe it, and will act upon that belief; and therefore the lawyers spent nearly all Friday and the whole of Saturday in disputing whether testimony going to show that fact should be let in or not. We wonder they don't dig up the dead body of Key, and insist on proving that it was Key. The talk drew out the defence's "right-bower," which is, that Sickles was the chosen of the Lord to execute upon Key the punishment denounced in the Bible upon those who commit adultery! What a narrow escape that lawyer had from a theological professorship!—*Springfield Republican.*

TO THE DAILY WHIG AND COURIER

The Sickles Trial.

WASHINGTON, April 25.

Whether owing to the tempestuous condition of the weather, or whether it be an indication that the interest in this protracted trial is subsiding, the pressure for admittance into the court room is by no means so great as on the previous days. The general impression yesterday seemed to be that the trial would be concluded to-day; but it is now thought that the argument on the instructions will be so spun out as to prevent that consummation.

LEAVENWORTH, April 2.

Private advices from Washington state that the Utah mail has been reduced to a semi-monthly service.

BALTIMORE, April 24.

The funeral of the Rev. Dr. Johns took place from Emanuel Church this afternoon. A large number of the clergy were present. The funeral cortege was the largest ever seen in this city; thousands thronging the side-walks and hundreds following the body.

The British Consul for Maryland, M. W. D. Moreton Dyer, died on Saturday afternoon, after a protracted illness.

WASHINGTON, 24th.

A draft for $10,000 has been received at the state department as an indemnification to the family of the seaman who was killed on board the Water Witch in 1855, by a shot fired from a Paraguayan fort, when that steamer was on her way to explore the Parana river.

NEW YORK, 24th.

Advices from Port au Prince of the 12th inst reports the coffee crops as very promising. The Geffrard government is improving; the assembly was to meet that day.

NEW LONDON, 24th.

The Cornfield Point light boat stationed near Saybrook in the Sound, broke from her moorings on Saturday evening during the heavy gale and was with great difficulty brought to this city, where she now lies awaiting repairs.

ST. LOUIS, 23d.

The overland mail of April 1st, has arrived. Sixty-nine pounds of silver, the product of the Arizona mines, were brought by the coach.

PHILADELPHIA, 24.

The funeral of John Capie, who was killed in a recent firemen's fight, took place this afternoon, and attracted an immense crowd. There was a fight between two other companies up town to-day, in which several were severely but none mortally wounded.

HATCH HOUSE RE-LEASED,

BY NATHAN PERRY, Jr.

THE subscriber announces to his numerous friends and the public, that he has taken a new lease of the above named and well known establishment, which in the most thorough order and repair, the most centrally and conveniently located house for the transient traveller, of any in the city, where he will take pleasure in attending to the comfort of his guests, on the most satisfactory terms.

Patrons of the house will be furnished with coaching to and from the steamboats and railroads FREE of charge. Bangor, April 1, 1859. [illegible]

A Word of Warning.

There is nothing more despicable than stealing the results of a reliable article to impose upon community its rival and worthless one, and yet it is often done. Fifteen years ago Heimstreet & Co. introduced a Hair Restorative, under the name of "Inimitable Hair Coloring." Its wonderful restorative properties made it immensely popular, and gray and bald heads were like to become a thing of the past, when the country was flooded with imitations, the use of which was not only useless, but absolutely injurious. The original preparation is a scientific combination, made with oil, and stimulating, supplying and affording an agreeable hair wash, while all the imitations are made with water, making the hair harsh, dry and frizzy, requiring, after it dries, the use of oil or wash to make it look decently. We would therefore advise our readers to buy nothing but the original Inimitable Hair Coloring or Renovator, which is infallible.—Troy Whig.

Price fifty cents a bottle. Sold everywhere.

PIANO FORTES!

THE subscriber would respectfully inform the inhabitants of Bangor and vicinity, that he has just arrived from NEW YORK, and has taken

Store No. 9 Main Street,

Where he has on exhibition, and for sale, for a few days only, a few of those

ELEGANT

Rosewood Piano Fortes!

Manufactured by the celebrated makers,

Messrs. Cummings & Canfield,

OF NEW YORK CITY.

These Pianos are full Seven Octave, elegantly finished in Rosewood, with beautiful Pearl Keys, which are unlike the Ivory as they never change their color, and at the same time are by far more durable. The first octave in the Bass of these Pianos is composed of a set of wrapped silver wires, running parallel with the side of the Piano, the whole crossing the Soprano immediately in the centre of the sounding board. Thus, with the increased length of both Bass and Treble strings, a length of scale equal to the grand or long Piano is afforded, and a richness, fullness and soundness of tone hitherto unknown on any square Piano, is produced.

There is still another point in this arrangement—the length of scale being equal to the Grand Piano, and upon a principle that acts as a counterbalance to the diagonal strain of the other strings, a very desirable object is effected in strengthening the frame and bracing the whole action. All the interior arrangements sustain such a complete relation to each other that it necessarily insures the greatest amount of musical harmony, producing a superb volume and rotundity of tone, and the most perceptible elasticity of touch.

Messrs. CUMMINGS & CANFIELD received the

First Premium

At the Great World's Fair in New York, for producing the finest toned Piano over all other makers, and have received the first premium at all the principal Fairs through the country.

These Pianos will be offered Fifty Dollars less than our fixed prices in New York, and every Piano fully warranted for three years.

During our short stay at Augusta we sold of the elegant instruments to Judge Farnsworth, Hon. J. W. Porter, J. W. Prescott, Esq., Elisha Barrows, Mr. Lithgow, Moses Gilman, Esq., Mrs A. A. Bittues, G. M. Partridge, J. G. Woodbury, Esq., and James Shaw.

Valuable Timber Land. Assignees' Sale.

I NOW OFFER for sale the following described tract or parcel of land; viz: 20-48 undivided (being 12750 acres more or less) of township No. 8 Range 4, East of Penobscot River, and North of Lottery Lands, so called, in Washington County, State of Maine. Said Township is favorably located for lumbering operations, and contains a large amount of valuable timber. For farming purposes it is reported to be superior to any Township in that section of the State.

Said lands will be sold subject to a mortgage to the late Thomas Drew.

I have a plan of the Township, and will furnish a copy to any one wishing to examine the land with the view of purchasing.

WINTER ARRANGEMENT.

NEW YORK & PORTLAND.

The Splendid and Fast Steamer

Chesapeake,

Capt. SIDNEY CROWELL, will run regularly between *New York* and *Portland*, as follows:

Leaves Brown's Wharf, Portland, every SATURDAY, at 4 P. M., and returning, leaves New York, Pier 12 N. R., every TUESDAY, at the same hour.

This vessel has just been fitted up with fine accommodations for Passengers, making this the most speedy, safe and comfortable route for travellers between New York and Maine.

PASSAGE $5,00—including Fare and State Rooms.

Goods forwarded by this line to and from Montreal, Quebec, Bangor, Bath, Augusta, Eastport and St John. Also, connects with steamers for Baltimore. Goods taken through with despatch, at the cheapest rates.

California Steamers,

Carrying the United States' Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via. Panama R. R.

CAUTION TO THE PUBLIC.

On account of the numerous frauds and impositions on travelers, those bound to California are cautioned to buy Tickets at the only authorized Agencies of the United States' Mail Line as below.

By order of the Post-master General, the United States Mail Steamers will hereafter be despatched from New York to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the *only* line giving entire Through Tickets, guaranteeing no detention on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure of night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation, over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line's cars and *short* passage, with the greatest comfort and safety to health.

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama, and tickets thus signed can be obtained of the *only authorized Agent* for the U. S. and Pacific Mail Steamship Companies in this city.

American & Foreign Patents

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington (under the Act of 1837.)

76 State St., opposite Kilby St.,

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"Boston, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

From Sept. 17th, 1857, to June 17th, 1858, the subscriber, in course of his large practice made on twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor* by the Commissioner of Patents.

YOU HAD BETTER TRY

MY MOTHER'S SALVE!

THIS CELEBRATED PREPARATION has obtained an enviable and world wide reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this SALVE, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"MY MOTHER'S SALVE"

Is a PERFECT CHEMICAL COMPOUND, prepared from ROOTS, HERBS AND GUMS, gathered from the forest, and possesses *Healing, Soothing and Pain-Relieving Virtues* never before combined in a Salve or Ointment.

"MY MOTHER'S SALVE"

Is SAFE AND EFFECTUAL and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a PERMANENT CURE.

"MY MOTHER'S SALVE"

In a BURN or SCALD takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"MY MOTHER'S SALVE"

Is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth. *Directions for using*

"MY MOTHER'S SALVE"

are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportion, renewed at times as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with the Salve. In case of Cough, Tightness of the Lungs, Sore Throat and such like ails, rub as in case of Rheumatism. In any case of pain a good adult will see the use of this Salve. Prepared by A. M. BECK.

CODMAN HOUSE, RE-OPENED!

This spacious and commodious House has been recently refitted and opened for the accommodation of the public, under the management of J. A. BACHELDER, whose observation and experience as a Hotel-keeper is unsurpassed. One of the best Cooks in the country will officiate in the kitchen.

The location of the House, and its appointments, cannot fail to render it one of the most pleasant and convenient stopping places in the country.

In connection with the House is a large *Hall* for the accommodation of parties. Also, a large and convenient *Stable*, with double and single stalls, as may be desired; and, having secured the services of one of the most experienced Hostlers, the public may be assured that their Horses will receive the best of care and attention. There is also a large stable fitted up with stanchions for cattle, separate or in droves.

Special pains will be taken to accommodate people emigrating to the Aroostook on the most reasonable terms.

PURELY VEGETABLE!

THE Great English Alterative

....AND....

Humor Eradicator,

DISCOVERED by an eminent English Surgeon, after years of study.

This Medicine is unquestionably the *best Alterative* ever used. Purifying the Blood, giving new and healthy impulse to the functions of the system, and rejuvenating the infirm. It eradicates, at once, all kinds of Humors, Cutaneous Eruptions, Cancerous affections, Scaly Eruptions, Leprosy, and all kindred diseases, which have their origin in impurities of the blood.

For Scrofula it may properly be regarded as a Specific. No other preparation known to the world so promptly and effectually cures this fearful malady. "Cleanse the fountain and the stream will be pure." Purify the blood and the system will be healthy. Take this Alterative and the blood will be purified. To all who are suffering from Chronic Rheumatism, Liver Complaint, Jaundice, Piles, Humor in the Eyes, Salt Rheum, Blotches in the face, and General Debility, this remedy is offered with the utmost confidence that it will afford speedy relief.

The Honey Blade Grass.

THE results which have been attained by experiments in the cultivation of this newly imported species of product, have awakened an interest among the farming classes, in many sections, never before equalled in the entire history of our agricultural industry. Facts, in regard to its valuable properties, which at first seemed almost incredible, have now been established beyond the possibility of a doubt, and it is believed, by those best capable of judging of its merits, that its general introduction will add millions of dollars to our agricultural wealth. I have not the space here to enter into details, but will present briefly some of its advantages.

First—It will produce double the weight to the acre, in any soil, of any other kind of grass.—From four to six tons per acre is not an uncommon yield, and I am in possession of sworn statements by disinterested and reliable persons, of a yield of over eight tons of good dry hay from a single acre, in soil where it was not possible to get more than one half the amount from any of the common grasses.

Second—The same weight possesses more nutriment; and, consequently, will sell for a larger price in the market, thus insuring the farmer more than double the return from his grounds that he could obtain from any other forage plant. The hay possesses one third more nutriment than timothy, and has sold for $16 per ton, where the price of timothy was but $10 or $12.

Third—Both hay and seed can be produced from the same crop, the hay being equally valuable as other hay after the seed is taken from it; while the seed is as valuable as the best of other grain, as a feed for horses, cattle, pigs, chickens, &c., and it is proved to be superior to linseed for the manufacture of oil, and must always find a ready sale, at a fair price, for this purpose.

Fourth—It matures in about two months time, and can be sown on grounds where other crops have failed, either by drouth or other causes, and, at the same time, will yield a large return.

Fifth—In northern climates, where clover and other grasses are killed out by hard winters, this will yield a large crop, and, in those sections of the South where other grasses will not thrive at all, it will grow very prolific.

Sixth—It will stand all kinds of weather, and, whether the season be wet or dry, the farmer may always rely upon his *Honey Blade* as a sure crop.

These and other advantages are proved by facts which are endorsed by some of the first agriculturalists of the Union, and cannot fail to carry conviction to every intelligent reader.

Having been engaged, during the past year, in the purchase and importation of the pure *Honey Blade Seed*, I have determined to offer it for sale on such terms as will make it an object for every farmer and planter to interest himself, during the coming season, in its cultivation. It is put up in uniform bags, of about sixteen pounds each, the amount being sufficient to seed one acre, and the price is $3 per bag, delivered in New York or St. Louis.

Single bags, or lots, can be sent to any part of the country as freight or by express, and will be put up, delivered for transportation, and the proper arrangements made, free of charge.

Each bag is stamped with the Hungarian coat of arms, and the following lettering: "*Honey Blade Hungarian Grass Seed.*" It will be sold by agents in various sections, but parties should be careful of whom they purchase, and secure the pure genuine seed. they are especially cautioned not to purchase the common Hungarian Grass Seed, as it is very far inferior to the HONEY BLADE.

An interesting pamphlet, containing all of the facts, and full particulars, will be furnished free of charge, by me or any of my agents, upon application. I will state, as an indication of the intense interest which the subject is exciting, that nearly a quarter of a million of copies of this pamphlet have already been applied for.

Parties desiring to secure seed should order at once, as the indications are that the limited amount obtained will be exhausted long before the season of sowing has passed. Those who secure seed this year can realize a rich return, by producing seed to supply the demand of farmers and planters for sowing another year.

Orders should be sent directly to me, unless in the vicinity of New York, where they will be filled by J. M. Emerson & Co., 406 Broadway, New York, General Agents.

Agricultural Houses, General Merchants, and any other parties properly situated, are invited to become agents for the sale of the *Honey Blade Seed*. Authority, full particulars, and from 50 to 100 pamphlets for distribution, will be furnished either by me or the New York Agency, on receipt of 25 cents, to prepay the package.

I am authorized to name the following well-known gentlemen as references: Hon. J. R. Barrett, President of the St. Louis Agricultural and Mechanical Association, Vice President of the National Agricultural Society, and Member of Congress elect from St Louis; Gen. T. Tilghman, Oxford, Md., President of the National Agricultural Society; John J. Anderson, Banker, St. Louis; John Riggan, Jr., Broker, St. Louis; and ex-Mayor Washington King, St. Louis.

PERRY DAVIS'

Vegetable Pain Killer!

REV. T. ALLEN, writing from Tavoy, Burmah, says:—Within the past four years I have used and disposed of above five hundred bottles, but am now out. Please send me a fresh supply (through the Mission Rooms) as soon as you can, say two hundred bottles. I dare not be without it myself, and there are endless calls for it, both by Karens and Burmans. I always take it with me into the jungles, and have frequent occasions to use it both on myself and others.—One night, while sleeping in an open Zayat, I was awoke by a most excruciating pain in my foot. On examination, I found I had been bitten by a Centipede. I immediately applied the Pain Killer, and found instant relief. In less than an hour I was again asleep.

Rev. H. L. Van Meter, of Bassein, India, writes:—Here let me assure you, that we prize your Pain Killer very highly. For the first two or three years of our residence in India we were ignorant of its valuable properties, and did not use it, but now would hardly feel safe without it for a single day. Only a few nights since Mrs. Van Meter was stung by a scorpion, and intense pain was instantaneous throughout the arm, and soon a numbness of the fingers followed. By the continued application of the Pain Killer for an hour or more, and at intervals during the night, the alarming symptoms were subdued, and in the morning only a slight soreness was felt in the finger. I gave it in a severe case of Fever and Ague, according to directions, and it acted like a charm, breaking it up at once." The Karens have great confidence in it.

Mr. W. L. Carpenter writes from Calcutta,—"Perry Davis' Vegetable Pain Killer is a very valuable medicine, and most people here that have used it entertain a high opinion of its worth."

BOMBAY, Dec. 4th, 1857.

Messrs. P. Davis & Son—Gents: We have sold the shipment of Pain Killer per ship Martha, and hope to close that per Squantum in a few days. Herewith find a draft for £50 on the Mercantile Bank of India, London and China, to your order. Hope to remit you soon for sale ex Squantum and Art Union. Yours truly,

DOSSABHOY, MERWANJEE & CO.

MELBOURNE, Australia, May 14, 1858.

Messrs. P. Davis & Son—Gents: The "E. H. Talbot," with 44 boxes, and the "State of Maine," with 48 boxes, of your valuable Pain Killer, have arrived, and the Pain Killer is sold at 10s per dozen. Neither of the lots are landed yet, but we hope they will be in time for us to forward your account sales and remittance by this mail. These two shipments are divided among four different buyers, two of whom would each have taken the whole 100 boxes if we would allow it. This is the best consignment we can make of your Pain Killer. Send us frequent shipments.

THE LIVER INVIGORATOR.

PREPARED BY DR. SANFORD.

Compounded entirely from Gums,

IS ONE OF THE BEST PURGATIVE AND Liver Medicines now before the public.

LIVER INVIGORATOR

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious attacks are cured, and, what is better, prevented, by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose, taken before retiring, prevents nightmare.

Only one dose taken at night loosens the bowels gently, and cures costiveness.

One dose taken after each meal will cure *Dyspepsia*.

One dose of two teaspoonsful will always relieve *Sick Headache*.

Only one dose immediately relieves *Cholic*, while

One dose often repeated is a sure cure for *Cholera Morbus*, and a preventive of *Cholera*.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for *Jaundice* removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes food digest well.

One dose often repeated cures *Chronic Diarrhoea* in its worst forms, while *Summer and Bowel Complaints* yield almost to the first dose.

A few bottles will cure *Dropsy*, by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for *Fever and Ague*, *Chill Fever*, and all Fevers of a *Bilious* type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator and swallow both together.

Price One Dollar per Bottle.
